ICX-MALLORCA

IMPLANTOLOGY AND DENTISTRY CURRICULUM 2025

Dear Ladies and Gentlemen,

We are pleased to be able to offer you english language courses at our training centre in Port D'Andratx.

Dr. Guillermo Escobar

Nowadays, it is fully necessary for an oral surgeon/ implantologist to have knowledge about advanced regeneration surgery, as our patients demand immediate provisional loading and sometimes there is no bone enough. What's more, in our daily basis we see more and more patients who suffer from peri-implantitis and they present big bone defects, which we have to regenerate.

In my opinion, in order to rebuild bone atrophies, the best option we have got is always autologous bone. During this lecture, every Dr. will have the chance to learn about how to use biomaterials and how to graft and use autologous bone.

Dr. Joel Teles

This course presents comprehensive approaches for the entire dental arch from FP1 to FP3. We compare digital and analog procedures in full-arch surgery and highlight their advantages and disadvantages. You will learn how to be creative with resorbed jaws: Make the best use of available anchor points, avoid large grafts, zygoma or subperiosteal implants and design your cases with less morbidity - for a more

time- and cost-efficient practice. In addition, we will teach you various techniques such as the palatal approach, the shelf technique, pterygoid implants, trans-sinus and other innovative approaches to make these methods accessible in daily practice.

Dr. med. dent. Andrea Malavasi

The rehabilitation of atrophic maxilla is a challenge in modern surgery.

In this day we discuss how to find a rational between the different surgery techniques based on the different grade of reabsorption.

We will discuss, among other things, of Pterygoid im-

DENTAL IMPLANTOLOGY NOW!

► 08.-10.05.2025 ► 13.-14.06.2025

plant, Transinusal implant and all the prosthetic protocols for immediate load and definitive rehabilitation.

The main objective is to:

- provide complete knowledge of the different techniques to rehabilitate the maxilla
- provide an algorithm on which technique to use in relation to the grade of atrophy
- provide a complete prosthetic protocol for immediate load and definitive rehabilitation

We look forward to an exciting and successful training program with you!

You are responsible for making your own travel, flight and hotel arrangements.

► 08.-10.05.2025 ► 13.-14.06.2025

IMPLANTOLOGY AND DENTISTRY CURRICULUM 2025

AGENDA ★ 08.-10.05.2025 ★ 399 €

THURSDAY 08.05.2025 19.00 Get together at the ICX trainingcentre

FRIDAY 09.05.2025 / SPEAKER DR. GUILLERMO ESCOBAR RUIZ "

ADVANCED REGENERATIVE SURGERY: AUTOLOGOUS BONE AND ZYGOMA IMPLANTS"

10-11.30 All on 6, GBR and Immediate loading in FP1 bridges (90 minutes)

11.30 -11.45 Coffee break

11.45-13.15 History of Autologous Bone Grafting (90 minutes)

13.15-14.15 Lunch

14.15-15.45 Principles of Autologous Bone Grafting Techniques (90 minutes)

15.45-16.00 Coffee break

16.00-17.00 Advanced Surgical Cases /concluding discussion/questions & answers (60 minutes)

SATURDAY 10.05.2025 / SPEAKER DR. JOEL TELES

„WHOLE JAW SURGERY: INNOVATIVE APPROACHES AND TECHNIQUES FOR THE ENTIRE DENTAL ARCH"

10-11.30 System overview, history and evolution of full arch approaches (90 minutes)

11.30 -11.45 Coffee break

11.45-13.15 analog Vs digital approaches, Pilot Guided and Full guided from FP1 to FP3 (90 minutes)

13.15-14.15 Lunch

14.15-15.45 resorbed jaws, All on Four, Extreme Palatal approach and other techniques (90 minutes)

15.45-16.00 Coffee break

16.00-17.00 Q&A; case discussion and final considerations (60 minutes)

20.00 Gala Dinner

AGENDA ★ 13.-14.06.2025 ★ 299 €

FRIDAY 13.06.2025 19.00 get together at the ICX trainingcentre

SATURDAY 14.06.2025 / SPEAKER DR. ANDREA MALAVASI

"REHABILITATION OF ATROPHIC MAXILLA, PTERIGOYD, TRANS-SINUSAL"

10.00-11.30 General Concepts / Crestal Sinus Lift (90 minutes)

11.30 -11.45 coffee break

11.45-13.15 ALL-ON-4 /Pterigoyd Implant/ Transinusal Implant (90 minutes)

13.15-14.15 Lunch

14.15-15.45 Immediate Load Protocol /

Definitive Restoration Protocol (90 minutes)

15.45-16.00 Coffee break

16.00-17.00 concluding discussion/questions & answers (60 minutes)
